

PROCESS HUMAN TECHNOLOGY CONSULTANT

“Employability Audit”

www.phtechconsultant.com

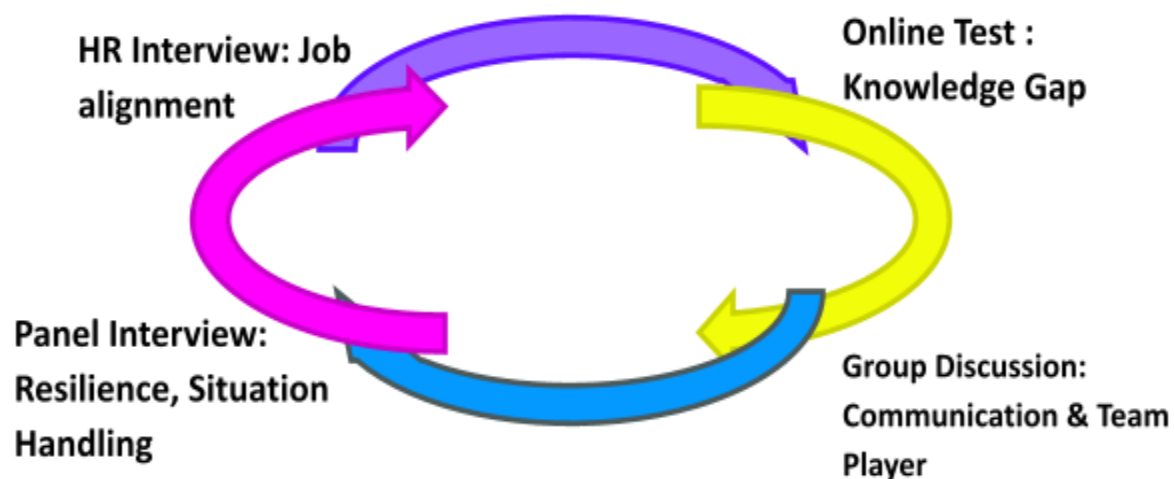

Purpose of Workshop

The modern job market demands a blend of technical expertise, communication agility, and psychological resilience. This program eliminates the gaps between academic knowledge and actual corporate expectations. It evaluates candidates under realistic corporate pressure to benchmark their skills, remove professional insecurities, and map out a precise growth trajectory

Audit Steps: "Employability Audit" workshop helps in identification of Gap Area for Self-development , Audit process includes four steps

- Knowledge Gap through "Proctored Online Test"
- Communication and Collaboration Gap through "Group Discussion"
- Resilience and Situation Handling Gap Through "Panel Interview"
- Job alignment & Emotional Intelligence Gap through "HR Interview"

Process Flow of Workshop

Impact of Workshop

- **Exposes Hidden Blind Spots:** Replaces guesswork with hard data, catching critical skill gaps before real recruiters do.

- **Crushes Interview Anxiety:** Desensitizes students to high-pressure settings, loud group discussions, and intimidating panel rounds.
- **Sharpens Instant Thinking:** Trains the brain to filter thoughts and deliver structured answers under strict time constraints.
- **Fixes Body Language Flaws:** Corrects nervous habits, weak postures, and vocal ticks through expert, video-ready feedback.
- **Bridges the Expectation Gap:** Aligns raw academic knowledge with the specific mindset and attitude HR leaders actually hire.
